## **Curtis Industries Rolls Out Cab System for the John Deere 1 Family Line of Sub-Compact Tractors**

*Innovative cab design fits 1023E, 1025R and 1025R FILB model*

Worcester, Massachusetts, October 1, 2015 – Curtis Industries, LLC manufacturer of cab enclosures, attachments and accessories for compact vehicles, announces the release of its cab system for the new John Deere 1 Family sub-compact tractors. Cab fits the 1023E, 1025R and 1025R with Factory Installed Loader Backhoe.

The cab frame, doors and roof are constructed of powder-coated, commercial grade steel for durability and long life. Venting windshield of tempered safety glass is supported on gas shocks. The total seal doors are pin hinged and remove in seconds – without tools – for open air operation in warmer weather.

The Curtis Premium cab also features a removable rear panel and dual sliding glass windows for superior ventilation in any weather condition. Rear glass panel lifts out in seconds for backhoe operation. Fully backhoe compatible and color matched for factory look.

Premium cab includes a 12VDC windshield wiper. An optional rear wiper is available for the Premium cab. In addition to standard features you can customize the cab with Curtis accessories such as roof-mount LED strobe and work lights, rear work lights, mirrors and heater.

### **About Curtis Industries**

Curtis Industries, LLC, an ISO 9001 certified company, is recognized as one of the most innovative designers and manufacturers of compact vehicle enclosure systems, attachments and related accessories that enhance our customers' comfort and productivity. The company, which started in 1968, also manufactures truck plows and snow & ice control equipment for tractors and utility vehicles. Curtis markets its products through OEM vehicle manufacturers and a large network of dealers in the United States and Canada as well as Europe and Asia. The company operates from a 150,000 sq. ft. facility in Worcester, Massachusetts.
