**Curtis Industries Introduces Cab System
For Honda Pioneer 700**

ClearView Cab by Curtis offers rugged design with exceptional visibility

Worcester, Massachusetts, March 1, 2017 – Curtis Industries, LLC manufacturer of cab enclosures, attachments and accessories for compact vehicles, announces the release of its new cab for the Honda Pioneer 700. The cab is one of the new line of ClearView Cabs by Curtis.

The cab is loaded with features to improve operator comfort and productivity. The hardened, polycarbonate doors and rear panel resist scratching and provide exceptional visibility. Windshield and door sliders are safety glass. Rear panel features a slider for added airflow through the cab.

The cab's venting windshield is supported by gas shocks for smooth operation and better control in windy conditions. Door sliders provide ventilation and reach-thru ability, allowing the occupants to reach outside the cab without opening the door.

The ClearView cab features Curtis Total Seal System with full rubber seal around the doors to eliminate drafts, dust and moisture from entering the cab. Steel roof has textured powder coat finish and includes an acoustic headliner.

Lockable doors provide added vehicle protection. Recessed door handles fit flush with the door for provide an attractive, sleek appearance. The cab installs in 4 to 5 hours.

Optional equipment includes a cab heater, exterior mirrors, windshield wiper and work lights.

Curtis provides full dealer sales and technical support on the ClearView cab including service parts.
