

FOR IMMEDIATE RELEASE

Curtis Launches New Accessory Line

WORCESTER, Massachusetts (May, 2013) -- Curtis Industries, LLC has launched a new line of accessories for the Tractor, Utility Vehicle, Golf and Personal Transportation markets. These new accessories will be the first among others that will be introduced over the next year.

Curtis' options for new accessories include:

- High output work lights and kits using the latest in LED technology
- New ROPS mount line works with or without a cab or roof system (see photo)
- Ultra, low amp draw LED lights allow mounting on several vehicle types and sizes
- "Automotive" style break-away mirrors include universal brackets for flexible, easy installation

Michael Alexander, VP of Sales and Marketing stated, "It's important for us to listen to the voice of the customer so that we can offer the best accessory options available." He also added, "Thinking of innovative ways to accessorize is just as important as manufacturing high quality cab systems."

Curtis Industries, LLC is the leading manufacturer of cabs, enclosures and accessories for compact tractors, golf cars, and utility vehicles. The company, which started in 1968, also manufactures truck plows and snow and ice control equipment for tractors and utility vehicles. Curtis Industries, LLC markets its products exclusively through a large network of dealers in the United States and Canada as well as Japan, Korea and Western Europe. The company operates from a modern 150,000 sq. ft. facility in Worcester, MA.
