Curtis Industries Introduces New Cab System for the Yamaha Viking

Worcester, Massachusetts, January 8, 2015 – Curtis Industries, LLC, manufacturer of cab enclosures, attachments and accessories for compact vehicles, announces the release of its new cab system for the Yamaha Viking®.

The Curtis cab features rugged, all-steel panels. The doors are powder-coated 16-gauge steel for structural strength. Large windows with dual sliders provide excellent ventilation, plus the Exclusive Curtis Quick-Release Latch allows you to completely remove the window panel in seconds without tools by simply turning 4 thumb screws. It's perfect for open-air driving.

The doors have additional features including heavy-duty 7-gauge steel hinges to reduce door flex and sag. Doors include gas shocks to assist opening and closing, and to provide additional control when opening doors in windy conditions.

Venting windshield is made of scratch-resistant polycarbonate. The rear window is made of impact-modified acrylic and is contoured for excellent visibility; venting slider in rear window allows flow through ventilation.

The cab uses the existing factory roof which comes standard on most models; cab includes added rubber sealing for better weather protection. Dual windshield wipers are standard, providing 3-passenger visibility in any weather.

Optional 2-speed under-dash heater and work lights are available.

About Curtis Industries

Curtis Industries, LLC, an ISO 9001: 2008 certified company, is recognized as one of the most innovative designers and manufacturers of compact vehicle enclosure systems, attachments and related accessories that enhance our customers' comfort and productivity. The company, which started in 1968, also manufactures truck plows and snow & ice control equipment for tractors and utility vehicles. Curtis markets its products through OEM vehicle manufacturers and a large network of dealers in the United

States and Canada as well as Europe and Asia. The company operates from a 150,000 sq. ft. facility in Worcester, Massachusetts.
